DID YOU KNOW?

A partnership agreement can help create a "third space," where academic knowledge intersects and are transformed. In this space, hierarchies are flattened, power is equally distributed, and collaboration between schools and educators is ready to expand boundaries and expand and community based knowledge converge in the third space.

Proposed Emergency Measure to Amend Sections 86.1, 86.2, 86.3, and 86.4 of the Regulations of the Commissioner of Education Relating to the Albert Shanker National Board for Professional Teaching Standards Certification Grant Program. William Murphy, Deputy Commissioner for Higher Education, and Elena Bruno, Professional Standards and Practices Board Secretary and Albert Shanker Grant Coordinator, presented [proposed amendments related to the Albert Shanker Grant](#). The amendments would revise the eligibility requirements for teachers for grant funds to cover costs associated with obtaining and maintaining National Board Certification.

The Albert Shanker Grant currently provides grant funds to teachers to defray the initial cost of obtaining National Board Certification. Nationally Board Certified Teachers (NBCT) renew their certification at their own expense. The proposed amendments would make funding available to NBCTs to renew their National Board Certification at the five-year expiration date as required by the National Board's Maintenance of Certification process.

The amendments also allow first-time candidates who fail one or more of the NBTC components a one-time opportunity to receive additional funding to retake the unsuccessful component(s). The proposed amendment also includes technical revisions to update the language of Part 86 of the Commissioner's regulations.

The emergency rule will become effective May 14, 2024. Following the expiration of the public comment period, the proposed amendment is anticipated to be presented for permanent adoption at the July Regents meeting and become effective on July 31, 2024.
