A. Enrolling Unaccompanied Immigrant Children

Purshco44>-5 <0051>-3 <0n thanc on regi/M54L (c)8 (o)- Stoo2 (o)-(1),(n)-3 (s (s)10 (o)e,)-4 s

a case-by-case basis under the law's broad definition, which includes youth who are persons due to economic hardship. McKinney-Vento eligibility determinations must be made by school districts on a case-by-case basis and should take into account the unique circumstances of each child. School districts are reminded of their obligation to immediately enroll such students while McKinney-Vento eligibility determinations are being made in accordance with §100.2(x) of the Commissioner's regulations.

B. Immunizations

govern the immunizations required for school attendance.⁸ Upon arrival at a U.S. Customs and Border Patrol facility, unaccompanied children are provided an initial medical screening.⁹ Children and youth without documentation of previous valid vaccinations are provided with vaccinations by the Office of Refugee Resettlement.¹⁰

Therefore, unaccompanied children who have been placed with a sponsor following custody in a HHS shelter should have documentation of immunization. However, some unaccompanied children may present to schools with incomplete or no documentation of immunizations. PHL §2164(7)(a) provides that when a student is transferring from another country, a principal (or other designee) may allow that child to attend school for up to 30 days if there is evidence of a good faith effort to obtain immunizations or other evidence of immunization.

C. Additional Resources for School Districts

USDOE and other federal and State agencies have issued guidance with respect to the education of these children. For more information, please see:
